

Energy Resources Oil & Gas Investment offerings now available through Questrade Brokerage

July 25, 2013

As of July 22, 2013 all of Energy Resources investment products can be traded on Questrade investment platforms.

Although the exempt market products are sophisticated investment vehicles which have evolved significantly over the past 4 years in Canada, there has always been one noticeable flaw in the offerings; the liquidity and accessibility to the funds. For most cases the only way to access these investments would be through Exempt Market Dealers (EMD's). At no point has any exempt market offering been available through an online brokerage firm such as Questrade in Canada.

Questrade has launched its Exempt Markets Product (EMP) platform allowing public participation by directly opening accounts and being involved in exempt investment trades that have been approved by their compliance department.

We are proud to be the first exempt market offering to be approved by Questrade compliance and placed on their online platform; furthermore we are excited to work in conjunction with their team in assisting all our current and future investor's needs.

About Questrade

Questrade was founded in 1999 with a clear mission: help Canadians achieve financial independence by providing them with the best investment products, trading technology, and client services. For the past two years, we've also been ranked by Investor Economics as the fastest-growing online brokerage. Questrade is proud to be a recipient of the 2012 Best Managed company award

About ERC

ERC seeks to provide investors current income, as well as long-term capital appreciation potential, by participating in multiple asset valued characteristic properties within the oil and gas industry. ERC seeks to put forward 2-3 limited partnerships with strong set characteristics in various geographical locations for investors to participate.
