

N.A
ENERGY RESOURCES
CORPORATION

Acquisition of Morgan Lease

March 3, 2015

N.A Energy Resources Corp is pleased to announce its most recent acquisition under the Kentucky Petroleum Limited Partnership fund. Kentucky Petroleum Limited Partnership has successfully closed on this acquisition in Laurel County, Kentucky to add to its current oil and gas lease holdings in the State.

Kentucky Petroleum Limited Partnership has signed and taken over the Morgan Lease, which consists of 67 net acres of oil and gas assets and is currently producing gas from the previously drilled Morgan #1 well. At this time this natural gas production is sufficient to service the landholder's residential dwellings. This well was drilled in the 1960's when gas was not a viable commodity. Based on the history of the producing wells in the area and the presence of gas from the Morgan #1 well, the lease contains hydrocarbons in the Knox Formation. Re-drilling a 3500' Knox well or re-entering the original well to re-evaluate the Knox is a prudent decision on the part of the Company to enhance the reserves and production from the field.

"Given the recent drop in crude prices, as the management we have a responsibility to evaluate all opportunities in order to capture further assets for the partnership with the vision of long term economic gain in mind. We are pleased to take over this acreage as it adds to current holdings of Kentucky Petroleum Limited Partnership with future developmental potential as commodity prices rebound." said Mehran Ehsan, president of N.A Energy Resources Corp.

ON BEHALF OF THE BOARD

"Mehran Ehsan"
President & Director

Kentucky Petroleum Limited Partnership

Kentucky Petroleum Limited Partnership. (KPLP) is Limited Partnership under the management of N.A Energy Resources Corp. KPLP sole responsibility to maintain oil and gas holdings in Kentucky, USA.
